Leadership: ROI
of Coaching

Craft

2015 saw a great kick off in May, attended by an audience of over 40 veteran, new and aspiring coaches. The coaching conclave was a unique event which saw established coaches engrossed in deep conversation with aspiring ones, demonstrating and tasting the craft through real time coaching.

Connect

The monthly coach connects over coffee have seen energized conversations and a free flow of ideas as well as amazing knowledge sharing. Our Learning leap events too have added a fresh perspective to knowledge, skills and attitude.

A connect with the ICF Global Leadership saw energized discussions on coaching and its potential as well as ROI on coaching.

Collaboration

The ICF Delhi NCR chapter to provide greater value to all members initiated increased collaboration with other chapters in India by sharing details of events being held across, to provide greater opportunities for learning and skill strengthening to coaches across.

Talks are underway to collaborate with SHRM with the aim to widen the scope of learning opportunities provided to member coaches. As a first step, a SHRM event held on December 18, 2015 was thrown open to ICF Delhi NCR chapter member coaches.

Count - Memberships

The chapter is at an all time high membership of **47** members of which **28** are also ICF global members. One global member at a time we are stepping closer to being a charter chapter.

Corporate Social Responsibility

Member coaches have begun doing some fabulous work and provided Pro bono coaching to C3 and Sightlife. An initiative is under discussion with an NGO working with children.

Communication and Marketing

The ICF Delhi NCR chapter now has a Facebook page with close to 160 members. The page is a platform to increase awareness about coaching and skills critical to it. The audience is both coaches and clients.

The chapter also is connected to members via WhatsApp and LinkedIn. Next on the anvil is the chapter website.
